

ROCKY VISTA UNIVERSITY
MASTER OF SCIENCE
IN BIOMEDICAL SCIENCES
UTAH CAMPUS

CLASS OF 2024

INDUCTION CEREMONY

FRIDAY, AUGUST 11, 2023

PROGRAM DIRECTOR'S WELCOME

Welcome to Rocky Vista University's Master of Science in Biomedical Sciences program. I am pleased that you have chosen to pursue your next academic and professional steps with us.

This program will encourage you to learn broadly about scientific principles, think critically about applying your scientific knowledge to the real world, and reflect deeply about sciences' effect on the lives of real people. We will challenge your ideas, inspire your curiosity, and develop your drive.

We are committed to your education and success; we will conduct ourselves with professionalism, honesty, and integrity—and when you put on your white coats today, we expect the same conduct from you. By dedicating yourself to the quest for knowledge and committing yourself to this journey, you dedicate and commit yourself to becoming respected and respectable healthcare professionals, researchers, and people.

The path toward success is not always an easy one; however, those with dedication see obstacles as challenges and opportunities rather than hindrances and deterrents. I applaud you and look forward to seeing what you will accomplish as part of RVU-UT's MSBS class.

Sincerely,

Francina D. Towne, PhD
MSBS Program Director, Associate Professor of Immunology

MSBS MISSION

The Rocky Vista University Master of Science in Biomedical Sciences program will provide an opportunity for students with diverse backgrounds and life experience to strengthen their educational foundation in the biomedical sciences, cultivate critical thinking skills, and prepare for careers in the health sciences.
